

## Health & Allergens Policy

Stage School Australia is committed to the health of all students and staff members. Whilst we aim, as far as practicable, to provide a safe and healthy environment, we recognise that achieving a completely allergen free setting is difficult, particularly in an extra-curriculum based context. As such, Stage School Australia considers communication, education and the implementation of practical strategies to be most effective in reducing exposure to known allergens.

Stage School Australia has adopted and implemented a range of procedures and risk minimisation strategies to:

- Reduce the risk of a student having an anaphylactic reaction at school; and
- Ensure that staff are trained to respond appropriately if a student suffers an anaphylactic reaction.

If your child suffers any allergies or anaphylaxis, it is imperative that you supply Stage School Australia with the essential information. If this information is provided to us on your child's enrolment form, we will also require a Medical Action Plan for our records and the appropriate medication must be with your child when attending all Stage School Australia events. Our Site Managers are fully trained in Anaphylactic Management. Upon receipt of the Action Plan, the Site Manager will be in contact arrange a meeting at our venue to discuss any special requirements regarding your child's situation.

Whilst we will take all reasonable steps to ensure staff are adequately trained and for the general conduct of our classes, we do not accept any responsibility for any illness or injury suffered as a result of participation in classes or other activity organised by Stage School Australia.
